## “Twister” Flat Drop Cable Slitter

Patent-pending design slits both sides of flat drop cable jackets on end or mid-span applications, and allows for precise, safe and easy access to fiber buffer tube.

### Features

- Unique articulating hinge allows accurate end **AND** mid-span stripping without disassembling the tool — simply close the tool over the cable and pull to slit jacket
- Shielded blades promote safe operation and prevent cuts and lacerations
- Ergonomic design with convenient opening tabs fits comfortably in hand and requires minimal effort to use
- Comes with two installed reversible blades plus two additional replacement blades stowed conveniently in tool
- Lightweight and durable polymer construction

Hinged design opens to accept cable for end and mid-span applications without disassembling tool.

Close the tool onto the cable and pull in the direction of the arrow; clamps tightly — no latch required.

Precision blades easily cut through jacket without damaging fiber.

Spare blades and an installation tool stored conveniently within the tool.
