

## Applications

# Patchcords Pigtails

## Standard, PM, Pigtailling

- Singlemode or multimode
- All connectors standards
- PC, SPC or APC polishing

Our offer is based on :

- High strength
- 25 years experience with fiber optic
- Specialized workshop with ISO 9001 certified
- Production and test equipments adapted to large or small series as well as prototypes
- Engineers and qualified technicians for customized products
- Expertise and availability of a large inventory of fibers cables, connectors

### Standard Patchcords

- ST, SC or FC connectors
- PC, SPC, UPC or APC polishing
- Singlemode or graded index multimode fibers
- Simplex, duplex or pigtails
- 2.5mm or 2.8mm cable protection

### Polarization Maintening Patchcords

- Patch cords or pigtails
- "TruePhase" fiber or other designs of PM fiber
- 900µm upbuffering or 2.8mm cable protection
- FC (large or small key) or SC connectors
- PC or APC polishing
- Slow or fast axis alignment
- Rotating FC version available for customer alignment

### Components Pigtails

- Singlemode or graded index multimode fibers
- Standard of PM fiber
- 900µm buffer "easy-strip" or tube PVC, Hytrel or elastomer
- Ceramic or polymer ferrule
- FC or SC connectors PC or APC polished

### SMA Patchcords

- SMA/SMA simplex or duplex patch cords
- Multimode graded index fiber or HCS fiber
- Tight buffer
- Ceramic or metal ferrule
- 1m or 2m standard lengths
